

Resource Training Organization

Resource Training Organization (RTO) was established in 2007 to oversee the management and development of apprenticeship training for the resource sector in BC. RTO represents a cross-sectoral group of employers in the mining & smelting, oil & gas, pulp & paper, solid wood, shipbuilding & repair and utilities sectors.

RTO's mandate is to create and maintain an effective, efficient and responsive industry training system by:

- Defining and promoting workforce development and training needs
- Developing and implementing an integrated training plan that matches the demand for skilled workers
- Setting training and occupational standards, following Red Seal qualifications where applicable
- Promoting career and training opportunities in the resource industry
- Measuring and responding to industry training results and outcomes

RTO Programs include:

- Industrial Electrician*
- Industrial Instrumentation Mechanic*
- Industrial Mechanic (Millwright)*
- Machinist*
- Metal Fabricator*
- Oil & Gas Rig Technician 1, 2 & 3 (3 = Red Seal)
- Planer Mill Maintenance Technician 1 & 11
- Power Engineering
- Power Line Technician*
- Saw Trades – Bench Person, Saw Filer, Saw Fitter
- Steam Fitter/Pipe Fitter*
- Tool & Die Maker*
- Welder A, B, C (A & B = Red Seal)
- Winder Electrician
- All related Shipbuilding & Repair trades
- All related Foundation/ELTT Programs

*Indicates a Red Seal Trade

RTO is funded provincially by the Industry Training Authority of BC.
